

Table S3. Student responses to statements assessed after the camp by both the control and impact groups. Scale is 1=strongly disagree to 5=strongly agree. * indicates a statistically significant difference at the 5% level (t-test).

	Control- After	Impact- After	Difference
After being in the control/impact group of the NASA summer camp, I have a greater interest in pursuing an education or career in science	2.6	4.0	1.4*
During the coming year, I intend to seek a job or volunteer experience in science	3.0	3.7	0.7*
I have confidence that, if desired, I could complete a college degree in science	4.5	4.6	0.1
