DEDICATED
to the 70th birthday of Academician A.É. Kontorovich

Academician Aleksei Émil'evich Kontorovich: principal lines of his scientific, administrative, and educational activities	3	1
<i>NAPHTHOID GENESIS. REGULARITIES OF LOCALIZATION OF OIL AND GAS DEPOSITS</i>		
Geodynamic environments of oil and gas generation on continental slopes. V.E. Khain and I.D. Polyakova	5	3
Sediment fluxes, natural filtration, and sedimentary systems of a "living ocean". A.P. Lisitzin	15	12
<i>REGIONAL GEOLOGY OF OIL AND GAS</i>		
Regularities of localization of giant gas accumulations in West Siberia. Yu.N. Karogodin	49	44
Lower-Middle Jurassic complex of the West Siberian Plate: structure and petroleum potential. V.S. Surkov, L.V. Smirnov, F.G. Gurari, A.E. Ekhanin, and V.P. Devyatov	55	50
The Paleozoic of the Shchuch'ya inlier: a model of geologic structure of island-arc complexes in the basement of the West Siberian geosyncline. A.V. Kanygin, S.V. Saraev, N.K. Bakharev, S.Yu. Belyaev, A.M. Brekhuntsov, N.P. Deshchenya, A.G. Klets, V.G. Khromykh, and A.N. Fomin	59	53
Reservoir quality and complex traps in Upper Jurassic of central and southern West Siberia: adaptive seismogeological modeling. V.A. Kontorovich, S.A. Berdnikova, L.M. Kalinina, and A.A. Polyakov	79	72
Geodynamic effect on the petroleum potential of the volcanosedimentary cover of the Siberian Platform. V.S. Starosel'tsev, A.V. Migursky, V.V. Grebenyuk, and T.A. Divina	91	82
Tectonics of Vendian-Silurian strata in the Lena-Tunguska petroleum province (<i>Siberian Platform</i>). A.É. Kontorovich, S.Yu. Belyaev, A.A. Kontorovich, V.O. Krasavchikov, M.M. Mandel'baum, S.A. Moiseev, A.F. Safronov, V.S. Sitnikov, and A.V. Khomenko	100	90
Precambrian petroliferous deposits on the southern Siberian Platform: exploration for extractable hydrocarbons. D.I. Drobot, V.A. Pak, N.M. Devyatilov, G.A. Khokhlov, A.V. Karpyshev, and I.N. Berdnikov	110	98
Petroleum geology and prospects of development of the Yakutian petroleum complex. V.P. Larionov, A.F. Safronov, V.A. Kashirtsev, K.I. Mikulenko, and V.S. Sitnikov	121	109
The role of bitumoid anomalies in the formation of oil resources of the Siberian Platform. M.D. Belonin and V.V. Samsonov	127	114
Oil and gas traps in Vendian reservoirs of the Baikit petroleum province: results of seismogeological modeling. N.V. Mel'nikov and A.V. Isaev	134	120
Genetic types of carbonate rocks of the Osa Horizon, the major oil reservoir of the large Talakan deposit (<i>Western Yakutia</i>). A.F. Safronov, M.D. Bulgakova, and V.V. Gaiduk	144	130
The shore region of the Kola Peninsula: structural zoning and petroleum potential. F.P. Mitrofanov, A.A. Predovsky, V.V. Lyubtsov, and I.V. Chikirev	151	137

Volume 45, Number 2, 2004

High-resolution sedimentary record in a new BDP-99 core from Posol'sk Bank in Lake Baikal. E. Bezrukova, A. Bukharov, V. Bychinsky, S. Colman, S. Fedenya, A. Gvozdokov, V. Geletii, A. Goreglyad, I. Gorokhov, E. Ivanov, T. Kawai, G. Kalmychkov, E. Karabanov, E. Kerber, B. Khakhaev, M. Khomutova, G. Khursevich, V. Kochukov, V. Kravchinsky, M. Krainov, S. Krapivina, N. Kudryashov, M. Kuz'min, N. Kulagina, P. Letunova, O. Levina, L. Pevzner, A. Prokopenko, C. Scholz, P. Solotchin, L. Tkachenko, D. Williams	163	149
The Shutkhalai metamorphic complex, southeastern Sayans: specific features of metamorphism and a model of formation. T.V. Donskaya, E.V. Sklyarov, D.P. Gladkochub, A.M. Mazukabzov, and E.P. Vasil'ev	194	175
Geodynamic position of Middle Paleozoic basite series of the Altai, exemplified by the Karaoyuk and Terekta complexes. V.A. Goverdovsky	212	193
Chemical typomorphism of mineral surfaces: surface composition specifics (<i>by the example of gold-bearing pyrite from epithermal deposit</i>). V.L. Tauson and R.G. Kravtsova	222	204
Carbonization of East Sayan ultrabasic rocks and Au-Pd-Pt mineralization. S.M. Zhmodik, A.G. Mironov, L.V. Agafonov, A.S. Zhmodik, A.L. Pavlov, T.N. Moroz, E.V. Airiyants, Yu.I. Kulikov, A.A. Borovikov, V.A. Ponomarchuk, and B.B. Damdinov	228	210
Study of optically active centers in diamonds from Uralian placers: an attempt to locate their primary deposits. G.K. Khachatryan, N.N. Zinchuk, V.I. Koptil', G.A. Gurkina, and M.K. Kharrasov	244	226
Geoelectrical surveys in the Ol'khon region: methods, results, and tectonic implications. N.O. Kozhevnikov, J. Bigalke, and O.K. Kozhevnikov	253	235
Linearization of relative parameters of a high-frequency magnetic field in two-dimensional conducting media. M.I. Epov and V.N. Glinskikh	266	247
C_g/C_p in sands and clays as a function of microstructure and wave amplitude. E.B. Sibiriyakov	275	258

BRIEF COMMUNICATIONS

The age of Late Mesozoic volcanogenic rocks of northern Transbaikalia (<i>estimated by the $^{40}\text{Ar}/^{39}\text{Ar}$ method</i>). F.M. Stupak and A.V. Travin	280	263
--	-----	-----

Volume 45, Number 3, 2004

GEOLOGY AND STRATIGRAPHY

Neoproterozoic stratigraphy of the Altai-Sayan Folded Area. A.A. Postnikov and A.A. Terleev	295	269
Climate and long-term silica dynamics in Lake Baikal. M.N. Shimaraev and V.M. Domysheva	310	284
Tectonic implications from the lithology of Lower Proterozoic deposits of the Ugui trough (<i>southern Yakutia</i>). Yu. V. Davydov	317	292
Lithological and geophysical characteristics of Cretaceous deposits in southern Transuralia. B.P. Ryzhyi and E.O. Amon	327	303

PETROLOGY, GEOCHEMISTRY AND MINERALOGY

Platinum group minerals and types of their associations in gold placers of the Sayan-Baikal Folded Area (<i>Buryatia</i>). D.A. Orsoev, Yu.Ch. Ochirov, A.G. Mironov, B.B. Damdinov, and S.M. Zhmodik	335	312
---	-----	-----

Geochemistry of Paleozoic granitoid magmatism in the West Stanovoy zone of Transbaikalia. M.E. Kazimirovsky	347	325
---	-----	-----

OIL AND GAS GEOLOGY

Number of oil and gas fields in underexplored petroleum provinces: statistical modeling. V.R. Livshits	363	341
--	-----	-----

GEOPHYSICS

Geological implications of gravity data from the hanging wall of the main Uralian fault (<i>southern Urals</i>). N.N. Vinnichuk and K.S. Ivanov	376	354
Propagation of seismic waves in solids. E.B. Sibiryakov	383	361
Estimation of thermoelastic properties of rock-forming minerals. G.T. Prodaivoda, B.P. Maslov, and T.G. Prodaivoda	389	366

BRIEF COMMUNICATIONS

Convergence of reflection traveltime curves as a seismic layering criterion. E.A. Khogoev	405	383
¹⁰ Be signature in the Miocene section of BDP cores (Lake Baikal): testing magnetostratigraphic age models. K. Horiuchi, E.L. Goldberg, H. Matsuzaki, K.K. Kobayashi, and Y. Shibata	408	386

Volume 45, Number 4, 2004

TECTONICS AND GEODYNAMICS

Cenozoic continental-margin volcanism in the Pacific and Bering Sea sectors of Kamchatka: geodynamic implications. N.A. Bogdanov and V.D. Chekhovich	421	391
Late Quaternary geodynamics and tectonic activity within the Kan fault system (<i>southwestern Siberian Platform</i>). S.G. Arzhannikov, A.S. Gladkov, and R.M. Semenov	430	399
Fault pattern in continental zones of lithospheric extension. K.Zh. Seminsky	443	411
Recent vertical crustal movements in the region of Yenisei Ridge. P.P. Kolmogorova and V.G. Kolmogorov	455	421

STRATIGRAPHY

The Vendian of the Baikal-Patom Upland, Siberia. V.V. Khomentovsky, A.A. Postnikov, G.A. Karlova, B.B. Kochnev, M.S. Yakshin, and V.A. Ponomarchuk	465	430
Calcareous algae and lower boundary of Cambrian in the western Altai-Sayan Folded Area. A.A. Terleev, V.A. Luchinina, O.V. Sosnovskaya, and G.N. Bagmet	485	449

PETROLOGY, GEOCHEMISTRY AND MINERALOGY

Estimation of the conditions of formation of REE-carbonatites in Western Transbaikalia. A.G. Doroshkevich and G.S. Ripp	492	456
Reconstruction of the thermal history of metamorphic rocks from the exchange-diffusion zoning of minerals. V.N. Korolyuk, G.G. Lepezin, and A.V. Korsakov	501	464
Sedimentation of monodisperse silica spheres and their coagulation-related aggregation at high temperatures. D.V. Kalinin and V.V. Serdobintseva	513	476

BRIEF COMMUNICATIONS

The age and geodynamic setting of formation of high-temperature metamorphic complexes in the South Mongolian Belt. I.K. Kozakov, E.B. Sal'nikova, A.N. Didenko, V.P. Kovach, A.M. Fedoseenko, and S.Z. Yakovleva	519	482
--	-----	-----

The Filippovka buried depression near Novosibirsk: a possible impact crater of Triassic— Early Jurassic age. S.A. Vishnevsky and V.A. Bogdashev	525	488
--	-----	-----

PERSONALIA

George V. Chilingarian (<i>in honor of the 75th birthday</i>).	288	494
--	-----	-----

Volume 45, Number 5, 2004

PALEOCLIMATE

Uranium-series isotopes as proxies of Late Pleistocene climate and geochronometers in bottom sediments of Lake Baikal. E.P. Chebykin, D.N. Edgington, E.L. Goldberg, M.A. Phedorin, N.S. Kulikova, T.O. Zheleznyakova, S.S. Vorob'yova, O.M. Khlystov, O.V. Levina, G.A. Ziborova, and M.A. Grachev	539	497
Reconstruction of Late Pleistocene and Holocene abiotic conditions in Lake Baikal. M.N. Shimaraev, and I.B. Mizandroutsev	557	514

PETROLOGY, GEOCHEMISTRY, AND MINERALOGY

Chromium assemblage of minerals in micaceous kimberlites of Yakutian province. S.I. Kostrovitsky and D. de Bruin	565	521
Noble-metal mineralization in rodingites of the southeastern East Sayans. B.B. Damdinov, S.M. Zhmodik, A.G. Mironov, and Yu.Ch. Ochirov	577	536
The age of clinopyroxenites and koswites of the Konder Massif (<i>from their paleomagnetic characteristics</i>). A.S. Karetnikov	588	547
Natural and experimental conditions of formation of coarse-grained precious opal (<i>nucleation and number of centers of supramolecular crystallization</i>). D.V. Kalinin, V.V. Serdobintseva, and Ya.V. Kuznetsova	600	559
Regularities of formation of large phosphorite deposits. E.A. Eganov and E.L. Shkol'nik	607	565

GEOPHYSICS

Lake Issyk Kul' (Tien Shan): unusually low heat flow in an active intermontane basin. P. Vermeesch, J. Poort, A.D. Duchkov, J. Klerkx, M. De Batist	616	574
Characteristic times of impurity extraction from surfactant-bearing magma melts. V.N. Dorovsky	626	585
Seismotectonics of the Baikal rift and its mountainous surroundings. V.V. Nikolaev and R.M. Semenov	639	598

Volume 45, Number 6, 2004

PETROLOGY, GEOCHEMISTRY, AND MINERALOGY

Conditions of petrogenesis of boninites in ophiolites of the Dzhida zone, northern Mongolia (<i>from data on melt inclusions</i>). V.A. Simonov, A.I. Al'mukhamedov, S.V. Kovyazin, A.Ya. Medvedev, and Yu.V. Tikunov	651	605
The Chernaya Sopka teschenite-syenite complex of the northwestern East Sayans: an expression of Early Devonian plume magmatism. A.V. Lavrenchuk, A.E. Izokh, G.V. Polyakov, D.V. Metelkin, N.E. Mikhal'tsov, and A.V. Travin	663	618

GEODYNAMICS

Model reconstructions of subsidence in the Kuznetsk sedimentary basin. O.P. Polyansky, V.V. Reverdatto, and A.N. Fomin	678	635
---	-----	-----

Internal structure, geodynamic setting, and U-Pb isotopic age of the Kubadru granitoid batholith (<i>Gorny Altai</i>). N.N. Kruk, A.G. Vladimirov, S.N. Rudnev, V.G. Vladimirov, Ya.V. Savinykh, O.A. Levchenkov, V.P. Kovach, and A.D. Kireev	688	645
Spatial regularity of fracturing in crustal fault zones. K.Zh. Seminsky	703	660

PALEOGEOGRAPHY

Regional signatures of changing landscape and climate of northern Central Siberia in the Holocene. V.L. Koshkarova and A.D. Koshkarov	717	672
---	-----	-----

OIL AND GAS GENESIS

Sources of oil in pools of the Shaim petroliferous area (<i>West Siberia</i>). V.I. Moskvina, V.P. Danilova, E.A. Kostyreva, M.A. Levchuk, T.M. Parfenova, N.V. Moiseeva, E.N. Ivanova, and A.N. Fomin	730	686
--	-----	-----

GEOPHYSICS

Frequency dependence of electromagnetic parameters and spatial heterogeneity in high-resolution electrical prospecting. M.I. Eпов, E.Yu. Antonov, and E.V. Pavlov	742	700
Prediction of stress and hydrodynamic behavior of fluids from multicomponent seismic data. B.P. Sibiryakov, E.B. Sibiryakov, A.F. Glebov, V.N. Nesterov, and E.P. Sokolov	752	709
Polarization processing of <i>PS</i> waves for estimation of anisotropy in fractured reservoirs, the Yurubchen-Tokhomo petroleum province: testing new algorithm. S.B. Gorshkalev, V.V. Karsten, K.A. Lebedev, A.V. Trigubov, and G.V. Volkov	760	716

BRIEF COMMUNICATIONS

Bacterial forms in glauconites from Upper Cretaceous deposits of the West Siberian Plate. Yu.N. Zanin, V.G. Eder, and A.G. Zamirailova	774	729
--	-----	-----

BOOK REVIEWS

Review of "Geology and health: closing the gap" edited by H.C.W. Skinner and A.R. Berger. E.V. Sokol and N.S. Yudin	778	733
---	-----	-----

Volume 45, Number 7, 2004

**PROBLEMS OF THE THEORY
OF OIL FORMATION AND ORGANIC GEOCHEMISTRY**

Preface. A.E. Kontorovich and V.A. Kashirtsev	783	737
---	-----	-----

NAPHTHIDE GENESIS THEORY

Evolution of oil generation in the Earth's history. A.E. Kontorovich	784	738
Geochemistry of aquabitu-mens. V.P. Danilova	803	755
Possible control of size distribution of oil and gas fields. L.M. Burshtein	815	768

*ORGANIC GEOCHEMISTRY AND HYDROGEOCHEMISTRY
OF THE WEST SIBERIAN PETROLIFEROUS PROVINCE*

Hydrochemical zoning of Jurassic and Cretaceous deposits of the West Siberian basin. B.P. Stavitsky, A.R. Kurchikov, A.E. Kontorovich, and A.G. Plavnik	826	779
Maturity of organic matter and petroleum potential of Paleozoic deposits in the West Siberian basin. A.N. Fomin	833	786
Geochemistry and genesis of Paleozoic oils in southeastern West Siberia. E.A. Kostyreva	843	794

Geochemistry and petroleum potential of organic matter of Triassic-Jurassic deposits in the North Sos'va region (<i>West Siberia</i>). V.I. Moskvina, E.A. Kostyreva, M.A. Levchuk, A.N. Fomin, E.N. Ivanova, and E.A. Zubova	854	805
Geochemistry of low-molecular C ₅ -C ₈ hydrocarbons in oils and condensates from West Siberia. L.S. Borisova and E.A. Fursenko	861	813
Phenanthrenes, aromatic steranes, and dibenzothiophenes in Jurassic deposits of the West Siberian petroleum province: implications for organic geochemistry. A.E. Kontorovich, V.N. Melenevsky, E.N. Ivanova, and A.N. Fomin	873	824
Heterocyclic components of dispersed organic matter and oils from West Siberia. L.S. Borisova	884	835
<i>ORGANIC GEOCHEMISTRY OF THE LENA-TUNGUSKA PETROLIFEROUS PROVINCE</i>		
Genetic families of Late Cambrian and Cambrian oils (naphthides) in the eastern Siberian Platform. V.A. Kashirtsev	895	846
Geochemistry of organic matter of oil source rocks and oils from Upper Precambrian strata of southern East Siberia. I.D. Timoshina	901	852
Organic geochemistry of oil-producing rocks of the Cambrian Kuonamka Formation (<i>eastern Siberian Platform</i>). T.M. Parfenova, S.F. Bakhturov, and Yu.Ya. Shabanov	911	862
Comparative study of Neoproterozoic oils from the Arabian and Siberian Platforms. N.S. Kim	924	875

Volume 45, Number 8, 2004

STRATIGRAPHY AND PALEONTOLOGY

Silurian stratigraphy of East Siberia. Yu.I. Tesakov	937	887
Specific geographic differentiation of Boreal cephalopods of Carnian age. A.G. Konstantinov and E.S. Sobolev	956	905

PETROLOGY, GEOCHEMISTRY, AND MINERALOGY

Evolution of sulfur isotopes in porphyry Cu-Mo ore-magmatic systems of Siberia and Mongolia. V.I. Sotnikov, V.A. Ponomarchuk, A.P. Pertseva, A.P. Berzina, A.N. Berzina, and V.O. Gimon	963	913
The Sm-Nd age of wollastonite skarns in the southern Baikal region. S.I. Shkol'nik, V.P. Kovach, L.Z. Reznitsky, and N.Yu. Zagornaya	975	924
Peculiarities of the formation of diverse veinlet beryllium mineralization at the Ermakovskoe deposit (<i>western Transbaikalia</i>). L.B. Damdinova and F.G. Reyf	979	928
Specific structure of the lowermost Earth's crust at the Zagadochnaya kimberlite pipe, <i>Yakutia</i> . L.V. Buzlukova, V.S. Shatsky, and N.V. Sobolev	992	942

OIL AND GAS GEOLOGY

The nature of vertical hydrogeochemical zoning of petroleum deposits (<i>exemplified by the Nadym-Taz interfluvium, West Siberia</i>). S.L. Shvartsev and D.A. Novikov	1008	960
Prediction of in-field oil and gas reserves in underexplored petroleum provinces. V.R. Livshits	1021	973

GEOPHYSICS

Evolution of invaded zone inferred from electromagnetic logging and hydrodynamic modeling. M.I. Epov, I.N. Yeltsov, A.A. Kashevarov, A.Yu. Sobolev, and V.N. Ul'yanov	1033	985
---	------	-----

Phase-amplitude modulation of a seismoacoustic wave under diurnal tides. B.N. Bogolyubov, V.N. Lobanov, V.E. Nazarov, V.I. Rylov, A.A. Stromkov, and V.I. Talanov	1045	996
---	------	-----

BRIEF COMMUNICATIONS

Assessment of mineral resources in terms of the estimation theory. Yu.A. Voronin	1050	1001
--	------	------

Volume 45, Number 9, 2004

GEODYNAMICS

Thermochemical plumes. A.A. Kirdyashkin, N.L. Dobretsov, and A.G. Kirdyashkin	1057	1005
---	------	------

PETROLOGY, GEOCHEMISTRY, AND MINERALOGY

Petrology of Ordovician collision-related layered peridotite-gabbro intrusions (<i>exemplified by the Mazhalyk intrusion, Southeastern Tuva</i>). E.V. Borodina, V.V. Egorova, and A.E. Izokh	1074	1025
--	------	------

Early Paleozoic Snezhnaya gabbro-syenite intrusion in southwestern Baikal region (<i>trace-element signature of crust/mantle mixing</i>). M.I. Grudin, S.V. Rasskazov, S.N. Kovalenko, and A.M. Il'yasova	1092	1043
---	------	------

Tectonic setting and composition of high-potassium ultramafic-mafic igneous complexes of folded areas (<i>exemplified by the Altai-Sayan and other regions</i>). V.N. Dovgal', A.E. Izokh, G.V. Polyakov, and A.E. Teleshev	1102	1053
---	------	------

Exotic amphibolites of the Ilmeny Mountains (<i>South Urals</i>): composition and geologic setting. V.G. Korinevsky and E.V. Korinevsky	1114	1065
--	------	------

Placer PGE minerals from the Filippa clinopyroxenite-dunite massif (<i>Kamchatka</i>). E.G. Sidorov, N.D. Tolstykh, M.Yu. Podlipsky, and I.O. Pakhomov	1128	1080
---	------	------

GEOPHYSICS

Amplitude-offset analysis of wavefield continuation. S.V. Gol'din and E.V. German	1145	1098
---	------	------

Electromagnetic field in a nonuniform sphere (<i>3D case</i>). V.V. Plotkin	1154	1107
---	------	------

Volume 45, Number 10, 2004

PETROLOGY, GEOCHEMISTRY, AND MINERALOGY

Gold and silver in ores of volcanogenic hydrothermal and hydrothermal-sedimentary pyrite-polymetallic deposits of Siberia. K.R. Kovalev, E.G. Distanov, G.N. Anoshin, I.V. Gas'kov, V.A. Akimtsev, and M.V. Baulina	1171	1121
---	------	------

Silver and antimony in hydrothermal solutions of Ag-Sb deposits. G.G. Pavlova, L.V. Gushchina, A.A. Borovikov, A.S. Borisenko, and A.A. Obolensky	1186	1136
--	------	------

Magnetites from magnesian skarns at dolerite-rock salt contacts. M.P. Mazurov, S.N. Grishina, and A.T. Titov	1198	1149
---	------	------

Effect of temperature regime on crystallization of leucite from orendite melt (<i>from experimental data</i>). E.I. Petrushin, L.Sh. Bazarov, V.V. Sharygin, V.I. Gordeeva, and N.V. Vladykin	1208	1159
---	------	------

Raman spectroscopic study of the structure and composition of basaltic glasses. V.A. Akimtsev, A.M. Pugachev, N.V. Surovtsev, and A.P. Shebanin	1216	1167
--	------	------

Lithological and geomorphological parameters of distribution of artificial radionuclides in the Yenisei floodplain landscapes. V.G. Linnik, V.V. Surkov, V.N. Potapov, A.G. Volosov, E.M. Korobova, A. Borghuis, and J.E. Brown	1220	1172
---	------	------

TECTONICS

Fault pattern and stress field in the western Tunka rift (<i>southwestern flank of the Baikal rift system</i>). O.V. Lunina and A.S. Gladkov	1235	1188
--	------	------

GEOPHYSICS

Regional isostatic gravity anomalies and mantle plumes in southern East Siberia (<i>Russia</i>) and Central Mongolia. Yu.A. Zorin and E.Kh. Turutanov	1248	1200
Fast transient electrochemical processes in ore minerals. A.P. Karasev, V.V. Olenchenko, and E.Yu. Yuditskikh	1259	1210

Volume 45, Number 11, 2004

TECTONICS AND GEODYNAMICS

Mechanisms of sea-depth changes in Silurian epeiric basins of East Siberia. E.B. Artyushkov and P.A. Chekhovich	1273	1219
Formation of the East Kamchatkan accretionary prism based on fission-track dating of detrital zircons from terrigene rocks. A.V. Solov'ev, M.N. Shapiro, J.E. Garver, and A.V. Lander	1292	1237
Neotectonic type structures of contraction, shear, and extension of the northern part of Great Altai (<i>Gornyy Altai and Southern Altai</i>). I.S. Novikov, E.M. Vysotsky, and A.R. Agatova	1303	1248

PETROLOGY, GEOCHEMISTRY, AND MINERALOGY

Relationship between Al-bearing phases NAL and CF in the lower mantle. K.D. Litasov and E. Ohtani	1313	1259
Initial magmas of Proterozoic troctolite-anorthosite massifs of North America and evolutionary trend of time-dependent variability of composition of peridotite-gabbro massifs. P.A. Balykin and T.E. Petrova	1326	1274
Distribution of noble metals in ophiolite associations of the Altai-Sayan folded area. A.S. Lapukhov, V.A. Simonov, R.D. Mel'nikova, and G.A. Tret'yakov	1337	1286
Carbon isotope composition of the Hesén and Chulaktau formations (<i>Hövsgöl and Karatau phosphorite basins</i>). A.V. Il'in, Yu.A. Kiperman, and A.A. Poyarel	1348	1297

GEOPHYSICS

Seismic exploration by refracted waves in petroleum prospecting. N.N. Puzyrev	1355	1304
Estimating parameters of a ferromagnetic cylindrical conductor by inversion of TEM field. M.I. Epov, G.M. Morozova, E.Yu. Antonov, and S.V. Shatrov	1358	1306
Assessment of a large earthquake risk in the zone of Main Sayan Fault using GPS geodesy and paleoseismology. V.A. San'kov, A.V. Chipizubov, A.V. Lukhnev, O.P. Smekalin, A.I. Miroshnichenko, E. Calais, and J. Déverchère	1369	1317

Volume 45, Number 12, 2004

GEODYNAMICS

Fragments of oceanic islands in the Kurai and Katun' accretionary wedges of Gornyy Altai. N.L. Dobretsov, M.M. Buslov, I.Yu. Safonova, and D.A. Kokh	1381	1325
Paleomagnetism of Early Cretaceous volcanic rocks from Transbaikalia: argument for Mesozoic strike-slip motions in Central Asian structure. D.V. Metelkin, I.V. Gordienko, and Xixi Zhao	1404	1349

Formation series in orogenic volcanic belts: implications for paleoenvironments. A.M. Kurchavov	1418	1364
Effect of water on subduction of oceanic crust into lower mantle. K.D. Litasov and E. Ohtani	1427	1373
<i>PETROLOGY, GEOCHEMISTRY, AND MINERALOGY</i>		
Geochemistry of highly carbonaceous metasomatites of the Ospa-Kitoy ultrabasic massif (<i>East Sayan</i>). V.B. Savel'eva, Yu.V. Danilova, B.S. Danilov, V.V. Markova, and S.V. Panteeva	1434	1381
Finding of Cr-V-containing minerals in marbles and quartzites of the Svyatoi Nos Peninsula (<i>Lake Baikal</i>). V.A. Makrygina, Z.I. Petrova, A.A. Koneva, and L.F. Suvorova . . .	1441	1389
<i>STRATIGRAPHY</i>		
The problem of post-Cambrian stratified formations in the Central Baikal-Vitim folded area. V.V. Buldygerov	1450	1399
<i>GEOPHYSICS</i>		
Seismic process and active lithospheric failure in the Baikal rift system. S.I. Sherman, V.M. Dem'yanovich, and S.V. Lysak	1458	1406
Simulation of a DC field in a horizontal well drilled in a layered conductor. N.I. Gorbenko, Ya.L. Gurieva, V.P. Il'in, E.A. Itskovich, and M.I. Epov	1471	1417
<i>BRIEF COMMUNICATIONS</i>		
Use of potential variations in electrical prospecting of anisotropic media. A.V. Kuzin	1478	1425
<i>INDEX</i>		
Author index, Volume 45, Numbers 1–12, 2004		1429
