

Tips for Submitting a Fall Meeting 2019 Session Proposal

Keep it to **150 words**. Be **clear**, **concise**, and **precise**

Topic must be **scientifically sound**

Primary conveners must be an **AGU member** and **fit all the requirements**, we encourage:

- **Gender diversity**
- **Early-career professionals**

Focus on a **topic** that is **broad**, **hot**, or a **scientific challenge**

Stay away from using **puns**, **idioms**, **questions**, or **figures of speech**... they don't always translate

Check to see if there is any **recent literature** on the topic

While some session topics are fundamental for research and Fall Meeting, **pick a topic** that **isn't exhausted** yet

Engage different disciplines or propose a **new topic** to **discuss or test**:

- Consider a **co-sponsored session** with a member of a partner society
- Consider a **co-organized session** that showcases **transdisciplinary science** across different AGU sections
