

# Megan S. Duncan

Dept. of Geosciences, Virginia Tech  
4044 Derring Hall  
926 West Campus Drive  
Blacksburg, VA, USA 24061

Phone: 540-231-5980  
803-984-9328 (Cell)  
E-mail: msduncan19@vt.edu  
mesadu85@gmail.com  
Web: megansduncan.com

## Professional Experience

### **Assistant Professor**

Virginia Tech, Department of Geosciences – Blacksburg, VA, USA – 2019-present

### **Postdoctoral Associate**

University of California, Davis – Davis, CA, USA – 2018-2019

- Mentor: Sarah Stewart

### **Postdoctoral Associate**

Carnegie Institution of Washington, Geophysical Laboratory – Washington, DC, USA – 2015-2018

- Mentor: Yingwei Fei

## Education and Research Experience

### **PhD Earth Science**

Rice University – Houston, TX, USA – 2010-2015

- Dissertation: Carbon in silicate melt - Experimental constraints and applications for the subduction zone and magma ocean carbon cycles
- Advisor: Rajdeep Dasgupta

### **MS Earth and Planetary Sciences**

University of New Mexico – Albuquerque, NM, USA – 2008-2010

- Thesis: The partial molar volume of carbon dioxide in peridotite partial melt at high pressure
- Advisor: Carl Agee

### **BS Geology**

Clemson University – Clemson, SC, USA – 2003-2007

Graduated Magna Cum Laude with Departmental Honors

- Senior Thesis: Characterizing fractured, crystalline aquifers using multi-level, interference slug tests
- Advisor: Larry Murdoch

### **CIDER (Cooperative Institute for Dynamic Earth Research)**

Participant – Summer 2016

- Participated in collaborative research projects: “Metastability in the Mantle Transition Zone: A Collaborative Geodynamic, Petrologic, and Seismological Approach” and “On the Origin of High Shear Wave Velocities in the Deep Roots of Cratons”

Participant – Summer 2014

- Participated in collaborative research project: “Mars Thermal History: Core, Atmosphere, Mantle, Phobos and Surface”

## Organizations

### **American Geophysical Union**

Member – 2008-Current

### **Geological Society of America**

Member – 2014-Current

### **Mineralogical Society of America**

Member – 2019-Current

### **COMPRES**

Education Outreach Infrastructure and Development Committee Member – 2019-present

## Publications

- Muth, M., **M. S. Duncan**, R. Dasgupta. (2020). The effect of variable Na/K on the CO<sub>2</sub> content of slab-derived rhyolitic melts. In *Carbon in Earth's Interior* (ed. C. E. Manning, J.-F. Lin, W. L. Mao). doi: 10.1002/9781119508229.ch17
