

CURRICULUM VITAE
Chuck Nittrouer

POSITION:	Professor (emeritus starting 2020) School of Oceanography and Department of Earth and Space Sciences University of Washington, Seattle, WA, USA
EDUCATION:	PhD - 1978, University of Washington, Geological Oceanography MS - 1974, University of Washington, Geological Oceanography BA - 1972, Lafayette College, Geology (with honors)
EMPLOYMENT:	1998-present University of Washington, Seattle 1987-1998 Marine Sciences Research Center State University of New York, Stony Brook 1978-1987 Marine, Earth & Atmospheric Sciences North Carolina State University, Raleigh
HONORS:	Fellow, American Geophysical Union Fellow, Geological Society of America Shepard Medal, SEPM Society for Sedimentary Geology Distinguished Lecturer, NSF MARGINS
SOCIETIES:	American Geophysical Union (Fellow) American Society of Limnology and Oceanography The Oceanography Society Geological Society of America (Fellow) International Association of Sedimentologists Society for Sedimentary Geology (SEPM) American Association of Petroleum Geologists

RESEARCH EXPERIENCE: Chuck's research interests include the modern and ancient formation of sedimentary strata in continental-margin environments, and the effects of physical and biological oceanic processes on sedimentary characteristics. He has made a career studying places where terrestrial sediment sources enter the ocean. These have included some of the biggest rivers (e.g., Amazon, Yangtze, Huanghe, Fly, Mekong, Ayeyarwady) and smaller systems (e.g., Po, Rhone, Sepik, Columbia, Eel, Copper, Skagit, Elwha), as well as tidewater glaciers entering southern- and northern-hemisphere oceans (e.g., Antarctica, Patagonia, Alaska).
