

A worldwide scientific community that advances, through unselfish cooperation in research, the understanding of the Earth and space for the benefit of humanity.

AGU is an international Union of scientists, working together on a broad spectrum of scientific topics that span all of the Earth and space sciences.

**AGU Membership** encompasses more than 50,000 individuals from over 135 countries. Benefits includes the free weekly newspaper, *Eos*, free subscription to *Physics Today*, discounts on AGU journals and books, discounts on meeting registration, access to job ads, and more.

**AGU Journals** are highly respected, peer-reviewed scientific publications. AGU Journals include *Journal of Geophysical Research*, which comprises seven disciplinary sections; the highly cited *Reviews of Geophysics*; and many others.

**AGU Meetings** are a prime opportunity for Earth and space scientists from all over the world to interact and share their latest research.

**AGU Outreach Programs** benefit a larger audience by informing and educating the public about geophysics, fostering a strong and diverse Earth and space science workforce, and providing a basis for the development of public policy activities worldwide.
