

# **Does Your Institution Subscribe to the AGU Digital Library?**

**Institutions can now offer their  
researchers/faculty/students  
desktop access to over 100  
years of Earth and  
space science  
research.**

**In 2009, the AGU Digital Library will include access  
to all AGU journals from volume 1, issue 1, through  
articles published in 2003.**

## **The AGU Digital Library also features:**

- References linked to abstracts of cited AGU articles and some abstracts of other cited publications
- Related articles such as comments and replies and corrections linked to or from original articles
- Supplementary material once available only on microfiche and videotape
- Full-text searching

For large institutions, 2009 subscription rates start at \$400 (journals only, concurrent user access) for institution-wide access. Other subscription and pricing options are available. For more information, please talk to the AGU representative at the AGU booth, or e-mail [institutions@agu.org](mailto:institutions@agu.org).
